SUMMARY

Full-stack engineer (Django/React/Postgres) focused on reliable APIs, idempotent payments, caching, and testing; interested in performance-minded feature work.

EXPERIENCE

Chandigarh University: In House Training

Mastering DSA 6-week hands on training, mastering core data structures topics like Graphs, Trees, DP and Tries etc.

Built a collaborative text editor using stack and Trie, reducing input latency to 20ms.

CipherByte: Web Developer Intern

Improved page load by ~35% and cut API p95 from ~600→320 ms via query pruning and HTTP caching.

PROJECTS

Wage Way: A local job marketplace that seamlessly connects service providers with customers, offering secure bookings, transparent communication, and reliable payment solutions.

Tech Stack: Django, SQLite, Bootstrap, Custom Auth, Review System, REST APIs, Deployed – render

Blue Dot: A real-time space data and geolocation platform featuring NASA/ISRO imagery, satellite tracking, and interactive cosmic exploration tools.

Tech Stack: HTML, CSS, JavaScript, NASA/ISRO APIs, Plotly.js, Hosting - render

AI Coding Tutor: An AI-powered chatbot that provides instant coding assistance, debugging support, and clear explanations for programming concepts.

Tech Stack: Python, Hugging Face Spaces, Streamlit, OpenAI API and others, host - huggingface

Skillify: A 1-on-1 tutoring platform that connects students with expert tutors for on-demand or scheduled sessions, featuring live video, chat, and secure payments.

Tech Stack: Django, PostgreSQL, JWT Authentication, REST APIs, Razorpay, host – pythonanywhere

EDUCATION

Bachelor of Engineering

08/2023-06/2027

Engineering Degree in Computer Science and Engineering

Pursuing Bachelor of Engineering in Computer Science and Engineering in Chandigarh University with a current CGPA of 7.65. Focused on full-stack development, data structures, and AI-based applications through academic and personal projects.

SKILLS

Python, JavaScript, Django, React, Node.js, MySQL, PostgreSQL, MongoDB, HTML, CSS, Tailwind CSS, Bootstrap, Flask, Git, GitHub, DSA, REST APIs, Problem Solving, Unit Testing (pytest, unittest), System Design Basics, Cloud Platforms (AWS basics, Render, Hugging Face)

CERTIFICATION

- **Cloud Computing with AWS (basic deployment and concepts) – NPTEL**
- **Mastering Python Development – Udemy**
- **SQL for Data Science – Coursera**
- **Data Structures and Algorithms – Infosys Springboard**
